

# Fermentation, Blending, and Storage Tanks

# Fermentation, Blending, and Storage Tanks

## We design and manufacture a full range of tank sizes and configurations:

**Fermenters:** Automatic pump overs, oxygen mixing, punch down

**Blending:** All shapes and sizes, with or without mixers

**Storage:** Stave hangers and micro-oxygenation are just a few options

**Tank styles can be customized to match your winemaking style:**

- **Tops:** Truncated, cone, open, floating, removable, flat, and dome
- **Floors:** Sloped, flat, cone, dome, and customized
- **Sidewalls:** Six foot dimples for cooling are unique to Westec. All sizes are options
- **Bases:** stainless bases, stainless legs, mild steel bases, mild steel legs, and concrete infilled
- **Side doors:** round, oval, or rectangular
- **Options:** Racking arms, mixers, CIP and pump over lines and more

**We can build custom tanks to your specifications from your largest tanks to your smallest portables.**

Call us for valuable input on your tank and winery requirements. Westec is eager to put our experience to work for you.

## Trusted Expertise

"Westec's experience helped us design our facility with fresh ideas. Their craftsmanship is impeccable, they deliver on time, and I like working with them."

- Clay Mauritsen, Mauritsen Wines

## Innovative Solutions

"The professionals at Westec are knowledgeable, responsive, creative, and service oriented. They designed and custom built an innovative and cost-effective solution for my winery."

- Merry Edwards, Merry Edwards Wines, Meredith Vineyard Estates, Inc.

## Precision Craftsmanship

"I've been a tank fabricator for 40+ years. We build your tanks as if they were our own—with pride in our workmanship and quality."

- Rick Hunt, Westec Tank & Equipment Company

## Strong Relationships

"Westec Tanks carry on the Alary tradition of excellence and integrity. Promises given are promises kept."

- Richard Arrowood
